## RESEARCH INTERESTS

My research interest seeks to study the influence of Positive Emotions on (a) Decision Making and (b) Interpersonal Relationships. I am specifically interested in understanding how differences in decision-making mechanisms under the influence of positive emotions will contribute to the final decisions. Furthermore, I am also eager to explore how discrete positive emotions such as Gratitude will influence interpersonal relationship maintenance, especially in the context of friendships.

## RESEARCH PUBLICATIONS

### *Manuscripts under Revision/Review*

1. Tov, W., **Nai, Z. L.**, & Lee, H. W. (under 2<sup>nd</sup> Review). Extraversion and agreeableness: Divergent routes to daily satisfaction with social relationships. *Journal of Personality*.
